

QUALITY POLICY STATEMENT

Hyteco (Aust) Pty Ltd provides wholesale distribution of fluid power products and complements our products with the design, assembly, installation and ongoing maintenance of fluid power systems to mobile and industrial sectors.

The Hyteco philosophy is based on excellence in fluid power and control.

Our primary objective is to get it right, first time, so that our Customers will choose us as their preferred supply partner. The value we create with our customers is through our innovative approach to product development and systems integration.

Our management systems have been developed to comply with statutory and regulatory requirements applicable to the business, within the internationally recognised ISO9001:2015 Quality Management System framework. Our management team are committed to ensuring continuous improvement across the entire organisation and enhancing the reputation of Hyteco in the marketplace as an ethical supplier of quality and reliable fluid power products.

Paul Hombesch
